LOS ANGELES DAILY TIMES.

VOL. I. LOS ANGELES, CALIFORNIA, FRIDAY MORNING, MAY 12, 1882. NO. 137.

AFTERNOON DISPATCHES

A Treaty in Reference to Crossing the Border Line.

Blaine Going to Europe—A man says he can Lay his hands on the Phœnix Park Assassins.

Associated Press Dispatches.]

WASHINGTON, May 10—The War Department has almost completed negotiations with the Mexican authorities with the view of allowing the troops of either government, while in close pursuit of hostile Indians, to cross the border line to a certain extent.

THE REPUBLICAN SPLIT IN PENNSYLVANIA.

CHICAGO, May 11.—Specials from Washington indicate that the proceedings in the Pennsylvania Convention yesterday will have the effect of still further widening the breach in the Republican party, and that there is little doubt that another Republican ticket will be put in the field. Senator Mitchell is said to have stated that he would not support the ticket, but that the Independents will on the 24th nominate a State ticket.

GUITEAU'S LAST CHANCE.

WASHINGTON, May 11.—Argument on the bill of exceptions in the case of Guiteau were resumed this morning. Colonel Corkhill opened for the prosecution. After detailing the circumstances of the shooting, he passed on to the question of jurisdiction, and pronounced as absurd the position taken, that because President Garfield was not allowed to remain in Washington and die there, the Court has no jurisdiction.

BLAINE GOING TO EUROPE.

Ex-Secretary Blaine has made known to some intimate personal friends his intention to go to Europe and spend from one to two years, and leave his political interests in the hands of Hale and Chandler, providing the latter does not conclude that his position in the Cabinet forbids him from exercising the same active interest in Blaine in the future as in the past.

Republican Nominations.

HARRISBURG, May 11.—The Republican Convention made the following further nominations: For Lieutenant-Governor, W. O. Davies; for Secretaryship of Internal Affairs, Charles M. Greer; for Congressman at Large, Thoms M. Marshall. The Committee on Resolutions presented a platform and resolutions. The Convention then adjourned.

The Army of the Tennessee.

ST. LOUIS, May 11.—The Society of the Army of the Tennessee met again this morning at the People's Theatre. Gen. Sherman was in the chair. Gen. Reynolds, for the Committee, reported the time and place of the next reunion as the 3d and 4th of March, 1883, the anniversary of the battle of Corinth, at Cleveland, Ohio. The following officers were elected: President, W. T. Sherman; Recording Secretary, T. A. Dayton; Corresponding Secretary, A Heckenlooper; Treasurer, M. T. Force, with a large number of Vice-Presidents.

Arkansas Crop Report.

LITTLE ROCK, May 11.—The wheat crop in Arkansas this season is reported the best for years past.

The Texas Cyclone.

DALLAS, May 11.—News from the McAllister cyclone says that the deaths added to those killed outright, increase the number of fatalities to twenty-one up to to-night. The killed and woundnd are men, women and children. Forty-two more wounded are reported, but it is not thought fatally. All possible aid from physicians, nurses, etc., is being rendered. Fifty-nine houses are totally demolished and twenty-seven partially. Settlements Nos. 5 and 7 of the Osage Mining Company, were the ones visited. They had contained about four hundred people. No. 5 was entirely wiped out, and the latter received only the partial force of the storm. Relief subscriptions are being taken up at various points.

Not Expedient—Stock Board.

SAN FRANCISCO, May 11.—The Grand Lodge of the I. O. O. F. has decided it not to be expedient to attach the endowment feature to the Order.

The Stock Board will begin their wheat call next Monday, at 1:30 P. M.

FROM OTHER COUNTRIES.

An Irishman makes some Startling Disclosures.

LONDON, May 10.—An Irishman has made the statement that last week in Dublin he refused an offer of ten thousand pounds sterling to assist in the murder of Lord Frederick Cavendish and Burke. The statement has been communicated to Sir Wm. M. Harcourt, Home Secretary. The man has been taken to Liverpool and still adheres to his statement. His knowledge of the locality of the crime and his description of the men give his statement every appearance of truth. The police anticipate that something important will come from his statements. He says he can lay his hands on the assassins.

THE DEAD.

LONDON, May 10.—The body of Lord Cavendish has been laid out for public view in the chapel at Chatsworth. The features are calm. Only one scar is visible—across the nose. The interment will take place at Edensor at two o'clock Thursday afternoon. Business in the surrounding districts will be suspended during the whole day.

DUBLIN, May 9.—The body of Burke was buried in Glasnevin Cemetery today. Crowds of people lined the streets. Nearly all the shops were closed, and mourning were worn by many people.

A STATEMENT FROM GLADSTONE.

LONDON, May 9.—Gladstone, in a published statement, announces that he has received a flood of communications from every part of the Kingdom expressive of horror and indignation at the crime. He says it is only just to state that none are more remarkable for fervor or sincerity than the large number from all parts of Ireland!

THE TRACK OF THE ASSASSINS.

DUBLIN, May 10.—The car by which the murderers fled has been traced from Chapil-Izod back toward Dublin to Inchicore and thence toward Naas. It is supposed the assassins took the train at Colbridge, getting back to Dublin at ten o'clock.

The officers of the guardship are dragging the Liffy for the weapons used by the assassins.

Clooman, supposed to be the carman who drove the assassins, is remanded for further inquiry.

An Irishman from America has been arrested at Castle Billingham, and two other prisoners are under remand at Monaghan.

REWARDS OFFERED.

LONDON, May 10.—The Government will offer a reward of £1,000 for information given within three months which leads to the conviction of the murderers. A reward of £1,000 is also offered for private information. The Government will also grant a free pardon and extend the special protection of the crown in any part of the Queen's domain to any persons, other than the principals in the crime, who may give the information required.

The corporation of Cork has voted £100 toward the fund for the capture of the assassins.

At a public meeting at Cork £600 were subscribed on the spot for the apprehension of the murderers. Subscriptions to the reward fund now amount to £2,000.

MEMPHIS, Tenn., May 9.—At a mass meeting of Irishmen, held this evening, the following telegram was sent: *Charles Stewart Parnell, M. P., London:* You have the encouragement and support of the Irishmen of Memphis, Tenn., who subscribe $1,000 for the arrest and conviction of the assassins.

George Kelley, of Portland, Me., contributes $500 to the reward fund.

The New Irish Bill.

BOSTON, May 11.—The *Herald's* cable reporter says: I understand that the Irish bill is now complete and that it provides, in complicated ways, for reforms in rent arrears, dividing the concessions between the landlords and tenants with tolerable evenness, and in this respect is nearly identical with the bill drawn by Parnell; provided the landlord gives up one year's rent the tenant is to pay one year, and the third year is to be paid out of the church surplus.

A Revolution in Egypt.

CAIRO, May 11.—Egypt is in a state of revolution. The ministry, in violation of the organic law, have summoned the Chamber of Notables over the head of the Khedive. The latter's disposition may be regarded as virtually achieved in favor of the government under Arabi Bey. The Egyptian ministers have formally assured the foreign consuls that no danger threatens the lives or property of Europeans.

Another Colliery Horror.

LONDON, May 11.—Information has just been received of a terrible explosion of fire damp in the Pluto mine, in the town of Bochum, Westphalia. Fifty-six dead bodies have been recovered.

SHOELESS HORSES.

A correspondent of the New York *Herald*, living in the stony, hilly regions of Connecticut, publishes the following communication on the above subject:

Over three years ago articles appeared in the Boston *Journal* and several other papers advising the working of horses without shoes, and at the same time giving the experience of several persons who had used them without shoes with complete success. I was so impressed with the statements and the success of the experiments that I was induced to have the shoes of one of my horses taken off. I turned him out to grass for about a month and then put him to work, lightly at first, and, I must confess, with fear and trembling; but after a trial I was so pleased with the result that I took the shoes off my other two horses and have worked them without shoes ever since, now about three years. I find they work better, more sure-footed and far less liable to lameness than when shod, and I am well satisfied that horses' feet as nature made them are all sufficient for ordinary work, and, I believe, for extraordinary work. After my long experience I should now as soon think of going to a farrier myself to be shod as to send my horses for that purpose. What surprised me most was that one of my horses was continually falling lame and we never could discover the cause, but since she has been worked without shoes she has never shown the least symptom of lameness and never stumbled, which she did very much when shod, from which I infer that the paring the soles when shoeing made her feet very tender and was the cause of all the trouble. Our roads are rough, hilly and stony, and much more so than the average roads, so that my success cannot be attributed to superiority in this respect.

Equestrians would find it far safer to use horses without shoes, as the sole becomes so hard as to be non sensitive to small stones and the animals are thus far less liable to stumble. To prevent the hoof from chipping the toes should be kept slightly rounded by a coarse file, such as is used by farriers, and as the feet should always be looked to when the horse is groomed the time required to do this is very trifling.

He was sitting in the parlor with her, when a rooster crowed in the yard, and, leaning over, he said: "Chanticleer," "I wish you would," she replied: "I'm as sleepy as I can be." He cleared.

An English bishop querulously remarked to his servant that he was dying. "Well, my lord," said the good fellow, "You are going to a better place." "John," replied the prelate, with an air of conviction, "there's no place like old England!"

A three-pound trout was caught in the Truckee, a day or two ago, which bore on one side "cod" in capital letters, very nearly a half inch in length. Still closer to the head appeared to be a number of smaller letters, which were so nearly obliterated as to be unintelligible, while about midway between the fish's head and tail were the letters "E. B."

CANDIDATE.

A few days since the Oakland *Tribune*, in giving a list of Republican candidates for Governor, included the name of our respected fellow-citizen, Gen. Mansfield, but whistled him down the wind, by saying his friends would only ask a complimentary vote for Governor, intending to urge him chiefly for re-nomination as Lieutenant Governor.

This, we happen to know, is untrue. Gen. Mansfield has filled the office of Lieutenant-Governor with great dignity and equal credit to himself and the State, and will not again accept the position, if tendered him. His friends will insist that he have the first place on the ticket, providing he can be induced to take it.

The article further states, that of the Republican candidates for Judge, there were only *two*—Judges Finn and Brunson—"both now Superior Judges in San Francisco."

Of Judge Finn we know nothing. But Judge Brunson is not now, nor never was, a Judge in San Francisco, but an able lawyer, and for a long time resident of Los Angeles, once elected to the Supreme Bench, but ruled out by Judge Crockett, who he was elected to succeed, on some technicality that seemed to be the bee in the bonnet of the distinguished jurist.

Judge Brunson will, without doubt, receive the united support of Southern California for that distinguished office, in the coming Republican convention.

CALIFORNIA'S POPULATION.

A census bulletin just issued presents the following facts relative to the nativity of the population of this State. The total population is 864,694, native, 571.820; foreign born, 292,874. The birth places of the native Americans were as follows, for the whites: California, 306,550; New York, 48,548; Missouri, 20,458; Massachusetts, 19,056; Ohio, 17,712; Illinois, 17,207; Pennsylvania, 15,213; Maine 14,485; Iowa, 9,154; Indiana, 8,135; other States, 78,011. There are 19,447 "colored" persons of California nativity. The foreign born are classified as follows: China, 78,548; Ireland, 62,962; German Empire, 42,532; England, 24,657; Canada, 13,078; France, 9,550; Mexico, 8,648; Italy, 7,537; Scotland, 6,465; Switzerland, 5,308; other foreign countries, 38,590.

THE MOREY LETTER.

Efforts are still being made to fasten the odium of the Morey letter on some one. It is said one John I. Davenport is working the matter up, and expects to fasten the guilt on ex-Senator Barnum, Hewitt, and certain other prominent Democrats.

CASTING about for eligible candidates for the various offices to be filled at the coming election, one finds a number of sterling men in this community who would uphold the banner and serve their constituency with honor to themselves and profit to the people. There have been numerous names suggested from the Democratic side for the office of Railroad Commissioner, but as yet we have heard none from the Republican side with the exception of our present efficient and able Mayor, J. R. Toberman. Mayor Toberman possesses the requisites for that office in a remarkable degree. He has made for himself such a record in the administration of our municipal affairs as would do honor to any man, and entitles him to consideration from all classes. He is not a man to be bulldozed or coerced, but is fair and candid in his conclusions. The Mayor would make a strong nominee.

A movement is on foot for the introduction of another branch of education into the public schools, that of teaching the Spanish language. A petition containing the names of nearly two hundred gentlemen of this city was presented to the Board of Education at its last meeting, and the movement seems to be a very popular one. Los Angeles is identified with the Spanish speaking people so thoroughly that it would seem but the part of common wisdom to educate the children in this important particular. Our relations with Mexico are also such as to form another strong inducement for the introduction of this branch into our schools. We hope to see the matter accomplished, and with some able instructor, such as we have in the person of Prof. Cuyas, it will accomplish much good.

R. F. DEL VALLE while in San Francisco was interviewed by a *Chronicle* reporter. He says he has no Congressional aspirations.

LAST NIGHT'S DISPATCHES

The Brule Sioux Indians are Surrendering their Arms.

A Vigorous Indian Policy to be Adopted—Forsythe Rises to Explain—Officers of Grand Lodge I. O. O. F.

WASHINGTON, May 11. — Inspector Gardner, in his report to the Indian Bureau, from Rosebud Indian Agency, in Dakota, says that at the council held there, many of the Brule Sioux surrendered their arms, to the number of two hundred pieces. The surrender was voluntary, the Indians requesting that the arms be sold and the proceeds applied to the benefit of the tribe. Indian Agent Llewellyn, of the Mescalero Agency, positively denies the reports that the Indians are leaving his reservation to go on the war path.

POLITICAL GUESSES.

Missouri Republicans here say in spite of the Democratic gerrymandering, the party will likely gain two or three members of Congress in that State. It is probable that ex-Senator Buckalew will be nominated for Governor by the Pennsylvania Democrats.

GEORGIA'S INVALIDS.

The condition of Congressman Black, of Georgia, continues serious. His illness seems to have taken the form of paralysis. He is unable to move in bed or feed himself. His mind continues bright. Senator Brown, of Georgia, is expected back, his health being improved.

THE GUITEAU CASE STILL ON.

At the conclusion of Corkhill's address in arguing the bill of exceptions, Davidge immediately began his closing argument for the prosecution, addressing himself to those who question the jurisdiction. The Court adjourned before Davidge concluded.

A VIGOROUS INDIAN POLICY.

NEW YORK, May 11.—The *Mail and Express* has the following Washington paragraph: The President, this morning, in alluding to the recent Indian atrocities, recited the history of their regular yearly occurrence, and said the time had now arrived when some effective means should be adopted for their prevention. He says, there is no doubt that Indian depredations are checking immigration and settlement and the development of the territories. Instructions have been given to use law and force to their extreme limit. This vigorous policy is universally commended here.

A Quien Sabe Case.

NEW YORK, May 11.—The *Commercial Advertiser* says: It is doubted by many persons whether Chandler will consent again to put on the armor for Blaine and make as bitter a fight for him as he did two and six years ago. It is known that the former intimacy does not exist between these two leaders, although Blaine assumes that Chandler is still ready to battle for him in preference to anybody else, but this remains to be seen.

The Scovilles' all Serene Again.

CHICAGO, May 11.—Mr. and Mrs. Scoville had a pleasant and friendly meeting to-day at the Brunswick Hotel, and after some private talk Mrs. Scoville gave up her room and they went to lunch together.

High Water in Arkansas.

MEMPHIS, May 11.—A special to the Evening *Ledger* from Jacksonport, Arkansas, on the White River, says the town is three feet under water and the river still rising.

At Lord Cavendish's Funeral.

LONDON, May 11.—One of the most conspicuous features of the funeral of the late Lord Cavendish was the assemblage of 5,000 Fenians of the Duke of Devonshire, father of Lord Cavendish.

FORSYTHE'S SAY.

Misled by False Information—Interview with General Garcia.

LORDSBURG, N. M., May 10.—General Forsythe, who recently returned to his present headquarters at Separ station, paid a brief visit to Lordsburg and Shakespeare last evening, and was, duly interviewed by the representative of the Associated Press. The General gave a lucid and interesting account of his late vigorous pursuit of the Indians from Stein's peak down into Mexico, having followed the trail one hundred and ten miles over the border. He states that his reception by Colonel Garcia, after the latter's engagement with and defeat of the hostiles, was extremely courteous. Garcia politely informed him that it was necessary for him (Forsythe) to return to his own country, that the Indians had been encountered and defeated by his Mexican troops, and that if he persisted in trespassing further upon Mexican soil it would be his (Garcia's) duty to oppose him. General Forsythe accompanied Colonel Garcia to the battle field and counted

SEVENTY-EIGHT GOOD INDIANS.

He also interviewed a daughter of Loco, who informed him that thirteen Indians had been killed in the fight at Steins' peak with Forsythe. The latter had only claimed two killed. Forsythe states that but thirty or forty bucks are believed to have escaped with Loco from the encounter with Garcia. He inclines to the belief that Garcia would not retain the thirty-three prisoners he had captured, but that they would be duly passed into the happy hunting ground. General Forsythe states further, that the published reports of his operations about Stein's peak, as given to the press at the time, were calculated to do him

SERIOUS INJUSTICE.

From this explanation of the affair it is evident that he was largely misled by false information given him by various parties as to the whereabouts of the hostiles and the location of the water supply. As Forsythe was a perfect stranger in the country and largely dependent upon such outside information as was conveyed to him by citizens, he of course labored under a great disadvantage, and it is but justice to him to state that his failure to capture Loco and his band in the Stein's peak range was more due to the cause named than to any lack of effort on the part of either himself or his officers and troops.

San Diego Municipal Election.

SAN DIEGO, Cal., May 11.—At the municipal election held in this city to-day officers were chosen as follows: Board City Trustees, First Ward, James McCoy; Second Ward, Samuel Slade; Third Ward, Arnold Schneider; Fourth Ward, J. H. Snyder; Fifth Ward, S. P. Jones; Board of Public Library Trustees, G. W. Marston, R. M. Powers, Bryant Howard, Elijah W. Hendsick and G. N. Hitchcock; Assessor, M. D. Hamilton; Collector, A. Pauly. There was no politics in this election. All passed off harmoniously.

I. O. O. F. Election.

SAN FRANCISCO, May 11.—The Grand Lodge Odd Fellows has elected the following Grand officers: Leon D. Freer, G. M.; D. M. Burns, D. G. M.; W. W. Morrow, G. W.; W. B. Lyon, G. Secretary; H. B. Brooks, G. T.; A. W. Scott, Grand Representative; John Hanson, F. R. Morton, E. F. White, Grand Trustees; J. B. Harmon, John F. Miller, C. W. Pomeroy; T. F. H. Sinex, Leland Stanford, F. B. Austin, C. H. Randall, Wm. H. Barnes, Trustees of Odd Fellows Home and College.

STOCKS.

SAN FRANCISCO, May 11. — Curry, $2⅛; Mexican, $6⅛; Ophir, $3⅜; Union, $11¼ Nevada, $7; Eureka, $19; Belcher, 25c; Utah, $2½; Diablo, $3½; Belle, $6¼; Savage, $1¼; Bodie, $5½; King, $17.

Oregon Crop Prospects.

SAN FRANCISO, May 11.— A Portland, Oregon, dispatch says: Reports of crops, based on the best of information, are of an encouraging character. In Willamette valley wheat looks as well as at any previous time for years. In the west side counties the prospect is even better. Light rains have somewhat retarded seeding, but, with favorable weather from the present time, a crop fully equal to that of last season, may be expected. In the region lying east of the Cascade mountains the increased acreage over last year, is from 40 to 45 per cent. The failure in the wheat crop in eastern Oregon and Washington was never known, and in one year only was there a light yield. The surplus valley wheat estimate this year is 230,000 tons; Eastern Oregon and Washington surplus this year, 145,000 tons; estimate of total surplus for export, 375,000 tons.

The Democracy will not Postpone.

SAN FRANCISCO, May 11.—The proposition was made some days ago to change the date of holding the Democratic State Convention from June 20th as was originally determined upon, to a later date. To-day, the State Central commitee met here to decide the matter all but two or three of the members present. The committee went into executive session, and after a short debate it was decided by a large majority not to depart from the original programme.

TUCSON TIDINGS.

The Cowboys' Indignation Meeting at Tombstone.

TUCSON, May 11.—The *Citizen* publishes the following from Tombstone: As announced, the cowboys and their political friends held an indignation meeting last night. The meeting was a complete fizzle and its action in no way represents the sentiments of the respectable portion of the community. Resolutions denouncing the President and Governor were introduced and when the vote was taken the noes had it by six to one, but Judge Robinson declared it carried. The meeting then dispersed. It was a complete farce.

A WRECK.

The *Star's* Crittenden special says: Five car-loads of workmen were wrecked on the New Mexico and Arizona Railroad this morning, near here, by the front car striking a piece, of timber on the track. One man, John Brown, was killed, and eight injured.

ELIJAH OF OLD.

The new editor of the *Tulare Times* in his salutatory says:

"Comparatively a stranger in your midst, upon the call of many of your most honored citizens, we have concluded, like Elijah of old, to cast our bread upon your waters in the hope that after many days it will be found floating."

This is like Mark Twain's character of Tom Sawyer, who, when asked to name two of the twelve disciples, scratching his head, answered, "David and Goliah."

The difference between a "bad cent and a demolished apple" is that one's good for naught, and the other's gnawed for good.

Women of the world never use harsh expressions when condemning their rivals. Like the savage they hurl elegant arrows ornamented with feathers of purple and azure, but with poisoned points.

EAST LOS ANGELES.

The Improvements Going on in that Thriving part of the City.

New Buildings—The new M. E. Church—Eastern Newcomers—A Public Park—M. Dodsworth's Fine Residence.

A TIMES reporter was instructed to go over the river yesterday and note the improvements going on in that part of the city. Ye reporter returned home laden with an extensive budget of interesting news. The first thing observed was the elegant residence now being built for Mr. N. Mathews, of the firm of Brown & Mathews, on the corner of Downey avenue and Hayes street, to cost about $1,500.

Another residence will be commenced in a few days on Downey avenue, near Walnut street, by a new comer, to cost about $1,500.

Dr. C. H. Lewis of Cedar Vale, Kansas, is building a residence on Lecouvreur street.

Mr. Wickman, an engineer on the S. P. R. R., is building two houses adjoining his home on Hoff street.

Mr. Mason, recently from Kansas, is building a tasty residence on Sichel street, near Downey avenue.

Mr. M. Dodsworth placed on the market yesterday the 106 desirable lots recently purchased by him. He sold three at $200 each to H. W. Mills yesterday. Mr. Mills will build a house shortly on one of the lots to cost $1,700. He has just erected four residences near Downey avenue, one costing $1,400, another $1,700, and two smaller ones. He has just sold a house and lot on Hayes street to a new comer from Iowa.

Philip Ebert, who recently arrived with his family from Ohio, has just purchased a house and lot on the corner of Hoff and Daly streets, from Wm. M. Johnson, and will make his home here.

Mr. M. Dodsworth will shortly erect a commodious and elegant residence on a fine lot, 250 by 200 feet, situated in the park property recently purchased by him.

Mr. H. W. Mills kindly furnished the reporter with a few particulars regarding the new M. E. Church. The location has not yet been fully decided upon, but at a meeting of the Trustees to be held this evening it will be definitely located. Arrangements will be made also for building the foundation. It will be a Gothic structure total dimensions, including the class and Sabbath school rooms 60 by 60 feet, steeple 67 feet high, seating capacity, 400, estimated cost, between $3,000 and $4,000. The church will be built in the center of a square lot 120 by 120 feet, and on the adjoining lot 60 by 165 feet, will be built a permanent parsonage. Realizing the importance of providing breathing places for the future, the people are already agitating the question of purchasing a public park for the benefit of the rapidly growing community on that side of the river, a sensible move.

THE CROP OUTLOOK.

Encouraging on the Whole—A Retrospective View.

From various sources the TIMES learns quite encouraging news about the crops over the county. While there will be some little disappointment about the grain crop, yet it will average well with former years, and may go beyond the average. The wheat and barley from San Gabriel to Spadra could not look better; in fine, the whole San Jose ranch will have a bountiful harvest. Particularly is this so about Azusa. The Baldwin ranch also looks finely. Around Compton the grain crops are good, especially the two hundred and fifty acres of Mr. Flood. Teed brothers, of the San Jose ranch, have four hundred acres of as fine barley as ever grew. The grain crops at Ranchito are in splendid condition. Particularly from every quarter come good news of growing condition of the corn crop. Haying is now in full blast, and large quantities of the best quality are being cut, and horse and cow feed will be plenty. Taken as a whole, while all the farmers will not rake in a bonanza this year, and while a few may catch a borrasco, yet the amount of gold that California will get this season from agricultural sources will be more than she will take from her mines.

Fairy Land.

A wilderness of delight are the floral gardens of Mr. A. Stengel on New Los Angeles street. Flowers of every shade of color imaginable, foliage plants of all the hues of the rainbow, ferns from all lands, exotics from all climes, abound on every hand, and the delicious fragrance of the many beautiful blossoms is all that convinces one that he is not viewing fairy land through the eyes of a sprite. If you wish to have a handsome door-yard, a bower of beauty, a thing of joy forever, there is no better way to accomplish it than by visiting Stengel and procuring some of his floral beauties.

A Foolish and Reckless Boy.

Yesterday afternoon as the incoming Wilmington train was crossing First street, a boy driving Fred Haniman's delivery wagon attempted to cross the track, resulting in a catastrophe—not to the train, but the wagon—which was demolished, and the horse, whose left fore foot was badly crushed by the train running over it. Strangely enough, the boy was thrown off on one side unscathed.

A Handsome Building.

Dr. H. Sinsabaugh sends us copies of Denver papers with illustrations of the new Mining and Industrial Exposition building, with accounts of the laying of the corner stone on Wednesday, May 3d. The object of the enterprise is the establishment of permanent mining exhibition grounds, where may be held a national exposition of mining and other products, and in time forming a grand museum. The main building is a substantial, permanent structure of five hundred feet in length, and three hundred and sixteen feet wide, with an area of nearly one hundred and fifty thousand square feet.

A Special Car.

A special Palace car from San Francisco arrived here last evening, and passed on to Santa Monica, and will go East to-day. It contained Mr. Fillmore, the Assistant Superintendent of the Central Pacific Railroad, and Frank Jaynes, District Superintendent of the Western Union Telegraph Company, with a party of friends.

PASADENA.

A Pleasant Party — Picnicers — Sprinkling—Debate.

A very pleasant party was held at Mr. Rossi's on Thursday evening last, taffy pulling, music, charades, and a dainty lunch constituting the programme for the evening. Quite a large crowd were present, among them Mr. and Mrs. Ross, Mr. and Mr. Baker, Mr. and Mrs. B. S. Eaton, Mrs. Merrill, Miss Jessie Ross, Florence Royce, Olive and Belle Eaton, Georgie Ellis, — Leavitt, Messrs. Jack and Arthur Ross, Geo. Clark, Geo. Eaton, C. Case, H. Lightfoot, F. Wallace, S. Campbell, Whit Elliot, Hunt, Ross, Rust and others.

Mr. Crowell sold his charming little place of five acres on Marengo Avenue, to Dr. Riggs of Tipton, Iowa, the price realized being $3,250. The Doctor is to be congratulated on his selection.

Our streets are lively with picnicers at present, there having been some four or five different picnics out here last Saturday.

There is no reason why some wide-awake man could not make a good "spec" by running a sprinkling cart out here during the summer and keeping a few of the dust down.

We are glad to note that "Arroyo Vista," the fine new boarding house of Mrs. Bangs, is full to overflowing, as in fact is the case with all our boarding houses at present, notwithstanding its being rather late in the season.

We received the San Francisco package of your valuable paper on Wednesday, instead of our own. Of course the posmaster could not be blamed for an error of the kind, but it is, nevertheless, rather an inconvenient one.

Hay crops are looking fine with us, and there is every prospect for a large yield.

Quite an interesting affair took place at the school house on Friday last. A debate was held, the question being, "Shall Chinese Immigration be Discouraged?" The affirmative was very ably handled by John R. Lowe and Walter R. Ward, the latter opening and closing the debate, while the negative was ably, but unsuccessfully, defended by Dudley Griswold and Will Mosher. The question was decided in favor of the affirmative. To Mr. Lowe is due the credit for taking the initiatory step in this direction, and we hope that he, assisted by the whole school, teachers and all, will keep the ball rolling.

Santa Ana Has

Five churches—well attended; a fine school house; a public library and free reading room; a lodge of almost every secret order; one lumber yard; plenty of good musical talent; one tailor shop; six blacksmith shops, all busy; one photograph gallery; three grocery stores; one wood and coal yard; eight general merchandise stores; one hotel—badly need another; two restaurants—good ones; four boarding houses; nine doctors—all getting rich; two lawyers—want another; not nearly enough brick masons; two weekly newspapers; two drug stores—another coming; two book stores; two Justices of the Peace; not enough day laborers; no end to the number of children; six saloons—well patronized; one variety store; two banks—with full vaults; two harness shops; three jewelry stores; two shoemakers shops; three barber shops; three livery stables—big ones; three hardware stores; four millinery stores; abundance of fine weather; two gunsmith shops; four real estate agencies; ten preachers—some pretty good; six dentists—good looking ones; plenty of street-corner loafers; one boot and shoe store; one bakery—very good too; hosts of pretty marriagable girls; two furniture stores; two Chinese wash houses; three brickyards—booming; not much hoodlumism; a well conducted postoffice; two wagonmaker's shops; three tin shops—all busy; one or two weddings on the tapis; one semi-tropic tree nursery; one grist mill—very busy; one brewery—splendid beer; great need of a cannery; three public halls—two more building; nine brick stores in course of erection; a very energetic, pushing people; a constantly increasing number of very handsome private residences, with a wealthy, social, intelligent class of people steadily filling up our vacancies—mostly Republicans. Now, with the above showing and the fact that in but a short time we shall be the county seat of our new county, we think Santa Ana is, etc, etc.

THE PROTECTIVE UNION.

How the People of Compton Rid That Place of a Nuisance.

The saloon at Compton is dead. It made a desperate effort to exist but it soon went where the woodbine twineth; or rather the saloon men found that the climate was not congenial and they disappeared. A short time previous to their departure, the people of Compton met and formed a permanent organization bearing the name of the Protective Union. A committee drew up resolutions, upon which was founded the organization, for signature; and in a remarkably short space of time there were two hundred and forty names of the people within the immediate vicinity of Compton, placed upon the paper, showing their manly attributes in maintaining their temperance principles. Although the saloon men are gone the organization will continue to exist and be in readiness for future services, if required.

A Coming Concert.

Miss Mamie Lester, recently of Denver, where she has earned the reputation of being one of the finest musicians in that noted city, has undertaken to arrange for and manage a concert entertainment for the benefit of the new Presbyterian Church now being built in this city. The date on which the concert is to occur will be announced in due time. In the meantime the people of this city may rest in anticipation of one of the finest and best executed programmes that has ever been arranged or produced in Southern California. Miss Lester is enlisting the best talent of the city to assist her.

The Fair.

The committee on the fall fair of the Agricultural Association will take final action in the matter next Saturday. They complain of a great deal of apathy among the people, and assign certain strong reasons therefor. The fair will not go to San Bernardino. If not here, then nowhere.

GARDEN GROVE.

Our Correspondent allows her Pegasus Free Rein.

The town written up—and down—The Deacons, the Doctors, Dentists and all the rest of them.

"No news is good news," has been said, but be that as it may,
We'll write the little we can glean, and more some other day;
But this we forthwith must set down, that Garden Grove's a lively town.

Why, it has grown so rapidly that we can scarcely tell
Which place is which, or which is t'other, but this I do know, well,—
That you may wander up and down, but you can't find a better town.

The truth is this,—we'll vouch for it,—in time we'll all be rich,
When we'll have garnered in the wealth resultine from the ditch
Which our sturdy men have brought us down from Anaheim, our sister town.

Our business men are No. 1, their politics are sound.
There's Deacon Webster, (bless his heart) the best man over ground!
And Converse Howe,—but any clown knows he's THE merchant of our town.

Then there's our blacksmith, jolly man, "Stay Witham" is his cry,
And stay with him, [the horse we mean] he will, and won't say "die."
He does his work and does it "Brown," the tallest man in our town.

We have a dancing master here, Hunsacker is his name.
He doesn't teach the fancy steps,—the boys dance, all the same!
I tell you what, they "hoe it down," the liveliest dancing in the town!

We have some peddling outfits here, but we are forced to say
That Harris sells more in an hour than others sell all day.
We hope this fact won't make them frown, since they don't live in our town.

James Sturgis is a painter who knows how to use his brush,
Which is sufficient reason for his money being flush.
He'll paint your house red, white or brown; he's quite a credit to our town.

The man who makes false teeth for us, extracts teeth without pain.
And we can recommend him,—Dr. Warner is his name.
In these hard times his rates are down, though he's the most skilled man in town.

And Dr. Chaffee's living here,—his medicine is sweet,
For we have heard the children say 'twas very good to eat.
His naughty wife has set him down, the DEAREST doctor in our town!

We have another doctor still, who goes a-Head of all;
And he's a Christian, and what's more, from grace he does not fall,
If e'er with illness we come down, we'll send for him the first in town.

We understand that Martin soon will build a handsome store,
Where we can buy our jewelry much cheaper than before;
For profits we must surely drown by trav'ling to some other town.

Mr. Wooster is another man, whose shoe store soon we'll see,
Which, when 'tis built, will to this place an acquisition be.
We hope his lady soon may crown his joys by coming to our town.

And we're to have a new school house, if ever 'tis begun;
But on it's size they still debate, and how their tongues do run!
If they'd be governed by a gown, the school house now would grace our town.

We'll say no more in rhyme to-day, lest you should fear that we
In time your office may besiege, with vile "spring poetry."
But on your records set this down,—it is de trop in our town. LA FERMETE.

GARDEN GROVE, May 11, 1882.

LOCAL GEOGRAPHY.

Can You Give a Correct Answer to These Simple Questions?

Superintendent Guinn has prepared the following set of question on local geography for use in the higher primary grades of our city schools. The design of these lessons is to teach pupils something of their immediate surroundings. It sometimes happens that pupils who are able to describe the rivers, mountains and lakes of Africa and Asia are unable to answer the simplest questions in regard to the geography of the place where they live. Knowledge, like charity, should begin at home, and pupils should be trained to gather important facts in home geography before wandering away in imagination to foreign lands:

1. Give the name of the city, county and State in which you live?

2. Give the name of the street on which you live; the number of your residence, (if numbered.)

3. When was the first settlement made within the present city limits? By whom was it made?

4. Point to the east, west, south, north, northeast, northwest, southeast and southwest.

5. In what direction is your home from the school house? The school house from your home?

6. In what direction from your school house is the courthouse? Postoffice? Railroad depot? Normal school building? Plaza?

7. What river passes through our city?

8. What towns in the county north of our city? East? West? South?

10. What towns in the county can you go to by railroad? Give the distance to each.

11. What street car lines in our city?

12. What is meant by the scale of a map.

13. Supposing our city to be five miles square, how large a piece of drawing paper, allowing an inch for margin, would you require to draw a map of the city on the scale of a mile to two inches?

14. Draw an outline map of Los Angeles city; locate the principal streets.

15. Draw an outline map of Los Angeles county and locate the principal towns.

16. Give the principal agricultural productions of Los Angeles county. Tell how our products are shipped out of the county; name the places where shipped to?

17. Name the principal articles shipped into the county.

18. Name all the articles manufactured in Los Angeles city.

Those who are stopping at the Pico will spend to-day at Santa Monica, and those at the Cosmopolitan will go to Sierra Madre Villa. To-morrow they will reverse the order, and Sunday evening proceed to San Francisco.

In the Solano county jail all prisoners, men, women and children, are confined in one apartment. In its last report the Grand Jury recommended the establishment of separate rooms for women and children.

MEXICO.

Lower California—Its Resources—Climate—Mines, Etc.

Adjacent to our southern line lies Lower California, a territory in the Republic of Mexico. It is a peninsula, made by the Pacific Ocean on the one side and the Gulf of California on the other. The territory is 1,100 miles in length, by from 40 to 120 miles in width. Two ranges of mountains extend its entire length, corresponding to the Sierra Nevada and Coast Ranges of this State. The face of the country is mountainous, with rich, fertile valleys lying between the mountains and from one range of mountains to the other. As a grazing country it probably has no equal, there being no winter, severe storms or weather to interfere with the pasturing of large herds of cattle, sheep and horses. The soil is very deep and rich, producing all of the fruits, vegetables and grains of a perpetual summer climate.

ITS MINES AND MINERAL WEALTH.

There are three distinct mineral belts in the territory: First—The gold belt which begins at the American line and extends south through San Rafael (Real del Castillo) Sadagosa, Juarez, down to Muleja. Second—The copper belt beginning on the Tia Juana, near the American line and extends south for 600 miles. Third—The silver belt which is adjacent to the gold belt in places, and runs into the copper belt in others, and extends from a point a hundred miles below the American line for a distance south of 500 miles. The gold belt is from three to fifteen miles wide and is made up of two distinct kinds of mines. The one carrying only free gold, with but a trace of silver, the other, rich in sulphurets, and carrying nearly one half their value in silver. All the veins are large—from two to eight feet in width, and extend in places for a distance of from one to four miles, plainly marked on the surface. The ore pays from $10 to $100 per ton. Near San Rafael (Real del Castillo) about 100 miles from San Diego, are the quartz mills, two 10-stamp and one 1-stamp Kendall mills. Two of these are running on free gold ore—the La Gata (International) Company—with their one-stamp Kendall mill can crush about five tons in twenty-four hours. Their ore pays from $12 upwards. One run was made from ore that yielded over $100 per ton. The mill is now running on refuse ore and stuff from one of the old dumps that pays $12 per ton.

The Old Tunnel Company—a Los Angeles Company—have just started their new mill, running only day times, and are crushing about ten tons of refuse ore from the dumps, that which was thrown aside in the old workings. As the mill has but just started, no clean up has been made; but it is expected that the ore from the mines will pay from $16 to $20 per ton. The company have a full force in the mines and will soon run the mill day and night. It is probable that two other mills will be built during the summer. The prospects are bright that this will be one of the best mining camps ever struck on the coast.

In the silver and upper belts so far but little has been done in a practical way, but so far as anything has been done, the results have been very satisfactory. If under our government, there would be 50,000 men in the mines in Lower California within the next twenty months.

RAILROADS, TIMBER, ETC.

The "Bee Line" Railroad which is being built from National City via the mouth of the Colorado river, through Sonora, to Calabasas, in Arizona, will pass directly through the gold belt, and probably through San Rafael and within 100 feet each of the three mills already in operation. The valley of San Rafael, near which these mills are situated, is one of the prettiest on the coast—30 miles long by 8 to 13 wide, with fine soil and well watered. The climate is next to perfect, the mercury ranging from 50° to 60° in winter and from 60° to 90° in the summer, with a fine northwest breeze from the ocean. The nights are always cool and pleasant.

Just east of the gold mines and 20 miles from San Rafael, is a belt of fine pine timber 15 to 30 miles in width by 90 miles in length, with a fine natural road from the timber to the mines—all down grade, descending 5,500 feet in 20 miles. A six-mule team will haul four to five tons on a wagon at a load. The "Bee Line" Railroad will pass directly through this belt of timber.

Weather Report.

Observations taken by the U. S. Army Signal Service at 8:15 o'clock last night are as follows: Barometer, 30.02; thermometer, 46; dew point, 44; wind, north; miles per hour, 1; foggy. Maximum thermometer, 85; minimum, 45.
